

Arc Flash: Updated Practices

Kristin Aldridge (S044)

2027-04-26 | 15:00-16:00 America/New_York | Windlass Room

Session scope

Risk assessment and PPE selection after recent standard updates. CE credits: 1.0 PDH

Learning objectives

1. Participants will identify the information required for a documented risk assessment.
2. Participants will distinguish a classroom scenario from an approved site procedure.
3. Participants will identify the evidence a qualified reviewer needs before evaluating protective equipment.

Teaching plan

The speaker introduces the source session topic and a fictional case. Participants identify the decision to examine, review the supplied evidence, then discuss how different assumptions change their conclusions.

Case discussion

The group works through a case about arc flash: updated practices. Each team records the information it trusts, the information still missing, and the reason for its proposed next question. The speaker compares the teams' conclusions and ties them back to the session scope.

Outline status

This synthetic demo fixture represents the first outline submission. Its review state appears in the conference workspace. The final presentation deck is due April 9, 2027 and has not been uploaded.
