

General Session Panel: What the Control Room Learned This Winter

Desmond Vandersloot (S002)

2027-04-27 | 08:00-09:15 America/New_York | Mainsail Hall

Session scope

Four operators review the 2026-27 winter peak, hour by hour. CE credits: 1.25 PDH

Learning objectives

1. Participants will summarize the central claim in the session discussion.
2. Participants will compare the perspectives represented by the speakers.
3. Participants will identify a question participants can take back to their organization.

Teaching plan

The speaker introduces the source session topic and a fictional case. Participants identify the decision to examine, review the supplied evidence, then discuss how different assumptions change their conclusions.

Case discussion

The group works through a case about general session panel: what the control room learned this winter. Each team records the information it trusts, the information still missing, and the reason for its proposed next question. The speaker compares the teams' conclusions and ties them back to the session scope.

Outline status

This synthetic demo fixture represents the first outline submission. Its review state appears in the conference workspace. The final presentation deck is due April 9, 2027 and has not been uploaded.
