

Workshop W7: Leading Safety Conversations

Frank Ostergaard (S057)

2027-04-25 | 13:00-16:30 America/New_York | Deck Room 3

Session scope

Separate event; \$395, members \$295 with code; 70 seats. CE credits: 3.5 PDH

Learning objectives

1. Participants will identify a concern without assigning blame in a fictional workplace case.
2. Participants will practice an open question and a check for shared understanding.
3. Participants will document the action owner and follow-up question from a role-play.

Teaching plan

The speaker introduces the source session topic and a fictional case. Participants identify the decision to examine, review the supplied evidence, then discuss how different assumptions change their conclusions.

Case discussion

The group works through a case about leading safety conversations. Each team records the information it trusts, the information still missing, and the reason for its proposed next question. The speaker compares the teams' conclusions and ties them back to the session scope.

Outline status

This synthetic demo fixture represents the first outline submission. Its review state appears in the conference workspace. The final presentation deck is due April 9, 2027 and has not been uploaded.
